

TULSIMANI KUMAR

FULL STACK DEVELOPER

📞 9326636546 ✉ tulsimani04@gmail.com 📧 github.com/Tulsi2004 📍 Mumbai, India

SUMMARY

Passionate Full Stack Developer with hands-on experience in the MERN stack, skilled in building scalable, high-performance applications and solving real-world challenges. Proficient in both MongoDB and MySQL, with recent experience contributing to enterprise-level projects during an internship at a recruitment tech firm.

FRESHER

Web Developer (Internship)

Talent Corner HR Services PVT LTD

05/2025 - Present | Mumbai, India

Worked on two enterprise-level web applications — **Growbit**, An investment portfolio management system. Served as the team lead, contributing to both frontend and backend development. Built dynamic user interfaces using React, implemented backend APIs, and managed data operations using MySQL Workbench. and **Saarthi360**, A comprehensive business operations platform. Developed key reporting modules. Also contributed to the Goal Setter module, focusing on logic implementation and seamless data integration.

PROJECTS | using MERN Stack

STVBinge (Movie ticketing website)

09/2024 - 11/2024

Developed responsive UI for browsing movies and booking tickets with real-time seat availability. Implemented user authentication, session management, and secure booking workflows. Added showtime-based filtering and dynamic seat layout rendering.

Clothify (Clothing website)

12/2024 - 03/2025

Designed and developed a user-friendly interface with category-wise filtering of clothing items. Integrated cart functionality, secure checkout, and payment gateway for seamless transactions. Implemented order tracking and dynamic order history for personalized user experience.

MINI PROJECTS | using HTML, CSS, Javascript/React

Funflix (07/2023 - 08/2023)

Clone of the netflix homepage.

Temperature Converter (07/2023 - 08/2023)

Converts Celsius to Fahrenheit (and vice versa).

Product landing page (04/2025)

Implemented scroll-triggered animations like fade-in, slide-in, and zoom-in using the AOS (Animate on Scroll) library.

Drag Drop Builder (04/2025)

Enabled functionality for creating web page layouts by allowing users to place elements like text, images, and buttons from a sidebar onto a canvas.

EDUCATION

🎓 BSc in Computer Science

SIES College of Arts Science and Commerce

08/2022 - 04/2025

STRENGTHS

- 🛡️ **Technical leadership**
Ability to lead technical projects and teams effectively
- ⭐ **Technical issues analysis**
Expertise in analyzing and resolving technical issues efficiently
- ⚙️ **Teamwork**
Strong collaborative abilities with experience working effectively in team-based development environments.
- ⚡ **Quick Learner**
Quick adaptability to new technologies and processes
- 🎯 **Problem-solving skills**
Strong problem-solving capabilities in complex scenarios

SKILLS

React MongoDB MySQL
Node Express CSS
HTML
